

Poinsettia Care During the Holidays

Our Poinsettia History

Place your plant in indirect sunlight for at least six hours per day. If direct sun can't be avoided, diffuse the light with a shade or sheer curtain.

Provide room temperatures between 68-70 degrees F. Generally speaking, if you are comfortable, so are your Poinsettias. Do not place plants near cold drafts or excessive heat.

Avoid placing plants near appliances, fireplaces, or ventilating ducts.

Water your plants when the soil feels dry to the touch. Avoid overwatering or allowing plants to sit in standing water. Always remove the plants from decorative containers before watering and allow the water to drain completely.

It is not necessary to fertilize your plants when they are in bloom.

Patterson Farm Inc. has been a proud grower of beautiful Poinsettias for nearly 40 years. As with our produce, we take pride in providing you with the highest quality plants. Each Poinsettia that we grow receives individual attention, resulting in full, beautiful blooms. You won't believe the difference between our plants fresh from the greenhouse and those you see in stores.

Whether you are decorating your church or business, fund-raising, or looking for the perfect Christmas gift, we will be happy to assist you.

Fund-raising packets are available.

Visit our greenhouse and
hand-select your Poinsettias:

Monday-Friday 8 a.m.-5 p.m.

Saturday 8 a.m.-12 p.m.

Closed Sunday
